Subject: Building Update - April 7, 2009

Board employees are back working on the 8th and 9th floors following clean up of the water event of March 22 that affected those floors. The northwest stairwell is also reopened for all uses. You will find assessment reports regarding the 9th floor posted to the Building Assessment Webpage [here](#) and [here](#).

DGS has just this week turned over to us the Final LaCroix Davis Building Assessment Report. It will be posted to the website before the end of the week. Regarding that report, I have invited DGS Director Will Bush or his designee to make a presentation to the Board during the April 15th Board Meeting regarding its findings. As always, this meeting will be streamed from the Board Room and then posted to the website.

I do appreciate the continued patience of BOE employees as we deal with the issues as they come up.
